<b>1992 in Review: The Top RISC Processors</b> .....	<b>1</b>
In recognition of the many accomplishments of the past year, some impressive and others more dubious, we pay tribute to DEC, HP, MIPS, Sun, IBM, and others that announced new RISC processors.	
<b>Editorial: So Where's the Shakeout?</b> .....	<b>3</b>
Although many observers have predicted the demise of various microprocessor architectures, the shakeout is occurring more slowly than expected. While some fall by the wayside, six major vendors are still thriving.	
<b>Most Significant Bits</b> .....	<b>4</b>
DeskStation shows low-cost R4000 system; AMD expanding fab in anticipation of 486...while Intel continues record spending; Hitachi licenses Rambus interface technology; IBM to develop PowerPC notebook with Tadpole; LSI Logic and Dolphin to collaborate on SCI; Intel announces open licensing of PCI patents.	
<b>Fuzzy Logic Enters Mainstream</b> .....	<b>10</b>
Several major vendors are now offering products using fuzzy-logic technology. Some allow fuzzy-logic software to run on standard microprocessors, while others provide hardware optimized for fuzzy logic.	
<b>EISA Chip Sets Emerge for High-End PC Systems</b> .....	<b>14</b>
A look at the chip sets available for EISA bus interfaces. In the wake of Intel's 82350 chip set, companies such as ETEQ, OPTi, SiS, Symphony, and Texas Instruments currently offer similar products.	
<b>Oblique Perspective: The PCs of the Magi</b> .....	<b>17</b>
A touching holiday story about the art of exchanging gifts.	
<b>Literature Watch</b> .....	<b>18</b>
<b>Recent IC Announcements</b> .....	<b>19</b>
<b>Resources</b> .....	<b>20</b>

## MICROPROCESSOR REPORT

THE INSIDERS' GUIDE TO MICROPROCESSOR HARDWARE

### Published By

*Microprocessor Report* is published every three weeks, 17 issues per year. Rates are:

*N. America:* \$445 per year, \$795 for two years.

*Europe:* £345 per year, £595 for two years.

*Elsewhere:* \$575 per year, \$995 for two years.

Additional copies in the same envelope \$145 per year in North America, \$195 elsewhere. Back issues are available.

*Microprocessor Report* reviews and analyzes industry news based on information obtained from sources generally available to the public and from industry contacts. While we consider these sources to be reliable, we cannot guarantee their accuracy. Readers assume full responsibility for any use made of the information contained herein.
