Microprocessor Forum Heads to Europe

The first annual *Microprocessor Forum Europe* brings the fact-filled style of our American conference to Munich on May 19. The program will feature presentations on all of the leading architectures and processors: Pentium, SPARC, MIPS, Alpha, PA-RISC, PowerPC, i960, ARM, Transputer, 29K, and 68000. The lunch hour includes a talk by Dr. Hermann Hauser of EO on microprocessors in personal systems. This one-day meeting will quickly give you the latest information on high-performance microprocessors.

Registration for the conference is \$595, £425, or DM995. Contact Philip Sutcliffe at Parkway Gordon, Westwood House, Elmhurst Road, Goring, Reading, RG8 9BN, UK; 44 (0)491875386, fax 44 (0)491875524.

Spring Comdex and Windows World

Spring Comdex will be held in Atlanta on May 24–27. The conference is paired with *Windows World*, which this year will feature the rollout of Windows NT. The exhibit floor will have over a thousand companies showing their latest products. The conference program includes talks by James Cannavino (IBM), Bill Gates (himself), and Bob Palmer (DEC), as well as several tracks on networks, multimedia, Windows programming, and a host of other topics. See and be seen with a projected 70,000 other attendees.

Registration for the combined conferences and exhibits costs \$450. Single-track and single-day admissions are \$250–\$350, and exhibit-only tickets are \$75. Contact Comdex/Spring at 300 First Avenue, Needham, MA 02194; 617/449-6600, fax 617/449-2674.

Wireless Conference in San Jose

This year's *Wireless Datacomm* conference hits the West Coast, landing at the San Jose Convention Center on

May 18–20. It includes tutorials and sessions on topics such as wireless LANs, PCMCIA, personal communicators, semiconductors for wireless communication, mobile operating systems, and electronic mail. Craig O. McCaw of McCaw Communications will give the keynote. There will also be a small exhibition.

Registration for all three days is \$1095, with rates for one or two days available. Exhibit-only registration is \$25. Contact Communication Events, 37 North Avenue, Norwalk, CT 06851; 800/322-9332, fax 203/847-3399.

Report Defuzzifies Market

Electronic Trends has issued a new report on *The Fuzzy Logic Market* that explains fuzzy logic and its applications. It also profiles the major players in this market, offers market projections, and helps assess market opportunities. It projects that fuzzy logic will be a \$6 billion market by 1996. The report sells for \$1395. Contact ETP, 12930 Saratoga Avenue, Suite B5, Saratoga, CA 95070; 408/996-7416, fax 408/996-7871.

Displays and Imaging Conference in Seattle

The Society for Information Display (SID) will hold its 1993 conference at the Washington State Convention Center on May 16–21. Presentations will cover the latest advances in display technology (flat panel, LCD, CRT, projection), image processing, hard copy, and system software. Papers will be presented on Tuesday through Thursday, with the other days devoted to seminars and short courses.

Advance registration (by 4/30) for the three-day symposium costs \$250, and the short courses and seminars are an additional \$125 each. SID members receive a small discount. Contact the Palisades Institute for Research Services, 2011 Crystal Drive, Arlington, VA 22202; 703/486-7111.
