International Computer Forum in Moscow

The fourth annual *International Computer Forum and Exhibit* (ICFE) will be held June 1–4 at the World Trade Center in Moscow, Russia. The show allows worldwide companies interested in the CIS (Commonwealth of Independent States) and Eastern European countries to contact many end users, system developers, and government representatives from these countries. The exhibit is expected to attract 25,000 visitors. In addition to business issues, the conference includes sessions on many popular PC and workstation technologies. The working language is English with Russian translation.

Registration for the entire conference costs $1100. Hotel rooms could run an added $250 per night. Contact the International Computer Foundation, 293 Willshire Drive, Bloomfield Hills, MI 48302; 800/332-4423 or 313/332-8281, fax 313/332-8665.

Client/Server Show in Boston

On June 14–16, the *Client/Server World* conference and exhibition will be held at Hynes Convention Center in Boston. Coupled with *Database World*, the conference will explore technical and management issues related to connectivity, network management, server systems, object-oriented and relational databases, and distributed applications. Philippe Kahn of Borland and Charles Wang of Computer Associates will give the keynotes. Technical and management seminars will be offered on the Sunday before and the two days after the conference proper.

A $995 fee covers admission to all events during the three-day conference. The seminars go for an additional $345 each, and a complete six-day package runs $1595. Contact Digital Consulting, 204 Andover Street, Andover, MA 01810; 508/470-3880, fax 508/470-0526.

New Newsletter for Windows Programmers

The *Windows Developer Letter* provides in-depth technical know-how, tips, and undocumented secrets to help turn you into a Windows guru. It is a hands-on newsletter that explains new and complex issues in detail, with full source-code examples. The monthly newsletter costs $300 for 12 issues ($350 outside of the US and Canada). Contact Wisdom Software, 322 Eureka Street, San Francisco, CA 94114; 415/824-8482.

Business Trends in Electronics

The *Electronic Business Forecast*, published by Cahners, covers economic and management trends in the electronics and computer industries including computer systems, components, semiconductors, communications products, and consumer electronics. New subscriptions include a copy of Cahners' business forecast database on diskette.

The six-page, semimonthly publication costs $289 for a one-year subscription. Contact Cahners Publishing Company, PO Box 59, New Town Branch, Boston, MA 02258; 800/445-0678 or 617/630-2124 (ask for Wendy Chambers), fax 617/630-2100.

Automotive Electronics Reports

The *Hansen Report* is a business and technology newsletter that covers the automotive electronics industry. Paul Hansen uses his engineering background and knowledge of the auto industry to describe and analyze new products and business trends. A 33-page booklet of company profiles is also available. A one-year subscription, which includes a free copy of the booklet, costs $347 for 12 monthly issues ($387 outside North America). Contact Paul Hansen Associates at 234 Parker Road, Goffstown, NH 03045; 603/497-2854, fax 603/497-2858.
