

## RESOURCES

[3/27/00-res]

### ◆ PACK IT IN—IN DENVER

Looking for a way to package that new 1,024-bit microprocessor? Come to the **International Conference & Exhibition on High-Density Interconnect and Systems Packaging**. We're sure they can help; they've even squeezed the name of their event down to just "HDI 2000."

The conference will be held from April 25 to 28 at the Adams Mark Hotel in Denver. Five tracks and 23 sessions cover most aspects of leading-edge packaging technology, and an exhibits area, open April 26–27, will showcase the work of over 100 companies in this crucial field.

Registration fees range from \$395 to \$895; admission to the exhibit area is free. For more information, see [www.hd-international.com](http://www.hd-international.com).

### ◆ E<sup>3</sup> ISN'T JUST FUN AND GAMES

Don't be misled by the cartoon mascots wandering the show floor—plenty of serious business takes place every year at the **Electronic Entertainment Expo**. Last year, over 2,500 new entertainment software titles, accessories, and services were announced at E<sup>3</sup>. More than 55,000 people are expected to attend this year's show at the Los Angeles Convention Center.

Six half-day workshops on May 10 will be followed by the five-track conference and 450-vendor exposition, which take place May 11–13.

Registration costs \$200 to \$450, with discounts available for industry retailers and distributors. For more information, visit [www.e3expo.com](http://www.e3expo.com).

### ◆ GOT BANDWIDTH?

As if the Internet wasn't busy enough already, thousands of content creators, service providers, and equipment makers will meet at **MultiMediaCom 2000** from June 20 to 23 to discuss ways to get even more bits into (and, one hopes, out of) the network. The event will take place at the San Jose Convention Center.

Keynotes from Microsoft, Akamai, and Polycom executives will be reinforced by six half-day tutorials and dozens of conference sessions on topics ranging from broadband access to webcasting.

Registration is \$595 to \$1,695, with a \$100 discount for early registration (by May 5). Admission to the exhibition only is free when registering online through the show's Web site at [www.multimediacom2000.com](http://www.multimediacom2000.com). ◆
